GENERAL LIBRARY,
UNIV. OF MICH.
APR 6 1900

INDEX TO VOLUME NO. IV.

MARCH, 1899, TO FEBRUARY, 1900, INCLUSIVE.

Air at 2,500 Lbs. Pressure.....653
Air Brush.....684
Air Cars.....770
Air Cars in Chicago.....659
Air Cars, Hardie System.....770
Air Cars, Progress of.....738
Air Compression, Adiabatic.....686
Air Compressors, Electric.....684
Air Compressors, Four-Stage High-Pressure 651
Air Compressor, Gasoline.....603
Air Compressors, Ordering.....646-647
Air Compressor, Portable.....603
Air Compressors in Power House....669
Air Engine Operating an Electric Dynamo.....Cover November
Air Lift.....775
Air Lift Pump.....790
Air Motors.....779
Air Motors a Success.....828
Air Plant M. S. Ry. Co.....650
Air Power Cars, Test of.....630
Air Power Company, Annual Meeting of 827
Air Power Plant, New York.....842
Air Pumps 642
Air Wagon.....829
Alphabetical List of Pneumatic Inventions 608, 609
Alphabetical List of Pneumatic Inventions 624, 625
Appliances for Repairing Hose and Forming Pipe.....703-704
Application of Compressed Air.....619
Applications of Compressed Air in Paris 783
Automobile.....Cover January, 1899
Axle Straightening.....851

Band Mill.....802
Basket Making.....682
Beaumont, Col.....758
Bending Press.....852
Blacksmith's Forges, Operating.....606
Blacksmiths' Tools.....848
Boiler Plant, Popp System.....747
Boiler Shop Equipment.....633-634
Boring in a Salt Block.....787-788
Bottles for Holding Air at High Pressure 594
Brake Energy Utilized.....615
Brill & Company's Factory, Compressed Air at.....643
Broadway Tunnel 643
Brunel 760
Bulkhead Doors, System for Closing..812
Bulkheads, Device for Closing.....732
Bulldozer, Pneumatic.....849

Cailletet Process.....677
Caissons 722-728
Carpet Cleaning by Compressed Air, 855-856
Carpet Renovator 729
Caulking a Pipe Line. Cover March No. 1
Central Power Plant.....611
Central Power Plant, Quai de la Gare.745
Central Power Scheme.....626
Charging Station on Paris Tramway, Cover August Number
Check System, Pneumatic.....613-615
Clock, Municipal.....762
Clocks Operated.....739
Comparison of Electric and Compressed Air Cars.....707-708
Compressed Air and Its Distribution for Power Purposes in the City of Paris; How It Is Produced, Its Numerous Applications, and Its Cost, by Victor Popp.....739-747
Compressed Air, and Its Distribution for Power Purposes in the City of Paris; How It Is Produced, Its Numerous Applications, and Its Cost..760
Compressed Air, and Its Distribution for Power Purposes in the City of Paris; How It Is Produced, Its Numerous Applications, and Its Cost..779

Compressed Air Enterprises.....620-623
Compressed Air for Blasting.....860
Compressed Air in England.....748
"Compressed Air," Influence of.....610
Compressed Air in Medicine and Surgery 860
Compressed Air for Operating Corliss Engine 625
Compressors and Storage Plant, Popp System 742
Consumption of Air, Popp System....719
Consumption of Air.....780
Controlling the Car, Popp System....717
Cooling Air During Compression....653
Cooling Air for Liquefying.....694
Copy Book, Pneumatic.....786
Cost for 1,000 H. P. Central Power Plant 612, 613
Cost of Delivering Power to Mines...628
Cost of Production, Compressed Air..719
Cost of Production of Compressed Air in Paris.....784-786
Curves Showing Temperature of Air During Compression.....807
Cutting-off Saw.....802
Cyanide Process.....680

Danger from Electric Railroads.....795
Development of Pneumatic Traction, 690-691
Device in a Railroad Yard.....749
Diagram Showing Loss of Heat.....782
Discharge of Air Through Pipes..821-823
Discharge of Air Through Pipes.....843
Dispatch Pneumatic Tubes.....604
Displacement Pumps.....598
"Don't Let's Vait".....813
Drilling Holes.....705
Drilling and Riveting.....830-833
Duplicate Plant Necessary.....842
Dust Collector 729-730
Dust, Removing Dust Previous to Compression 695

Efficiency of Compressed Air.....740
Elevator, Safety.....845
Exhauster 834-835
Experiments in Different Conduits, Popp System.....762

Fire Engine, Compressed Air....720-721
Flasks for Holding Air, Popp System.717
Foundations, Pneumatic.....855-859

Gasoline for Operating Air Compressor 603-604
Gas Pressure Generator.....700
Glove Cleaning.....755

Hammer 853
Hammer for Frame Work.....705
Heat Required to Raise the Temperature of Air.....806
Hoadley-Knight Type of Motor.....655
Hoists, Pneumatic.....732
Horseless Carriage Pressure Generator 702
Hose Repairer.....703
House Cleaning by Compressed Air..854
House Renovator.....Cover February
House Renovator.....854
Hydraulic Air Compressor.....683
Hydraulic Air Compressor Test..766-767

Information Required for Ordering Air Compressors.....646-647
Intercooling 653
Interlocking, Switching and Signaling.666

Jail Cell Pneumatically Protected.....699
Jail, Pneumatic.....698
Journals, Pneumatic.....861

Kalgoorlie Power Company.....626

Leakage in Pipe Line, How to Test..809
Liquefaction of Air by Dynamical Action 637-642
Liquefaction of Air and Gas.....644
Liquefier 696
Liquid Air.....833
Liquid Air and Compressed Air Used in Simplon Tunnel.....859
Liquid Air as a Blasting Agent.....789
Liquid Air as a Cure.....788
Liquid Air as a New Source of Power (Fallacies).....635-637
Liquid Air as an Explosive.....731
Liquid Air for Automobiles.....769
Liquid Air Compression and Moisture.693
Liquid Air, Dewar.....679
Liquid Air Fallacies.....789
Liquid Air, Faraday.....677
Liquid Air, History of.....731
Liquid Air in Gas Making.....731
Liquid Air, Latent Heat.....800
Liquid Air, Low Temperature.....676
Liquid Air Machine (small).....683
Liquid Air Machinery.....692
Liquid Air, Manufacture of.....691-698
Liquid Air Plant, G. L. A. & R. Co., New York.....Cover July, 1899
Liquid Air Possibilities.....671-675
Liquid Air Stock-Jobbing.....789
Liquid Air, Tripler.....677
Locomotive, Compressed Air.....792
Log Flipper.....803

Long-Stroke Hammer..December Cover
Loss of Air.....760
Loss of Air Pressure Due to Friction.761

Mail Long Distances, Transmitting...606
Mail Tube System.....664-665
Mail Tubes in a Blizzard.....604
Mannesmann Tubes for Holding Air.656
Master Mechanic Convention.....714
Measuring Compressed Air for Central Plant 596
Merrill Displacement Pumps.....598
Metering Compressed Air.....595
Midsummer Dream.....733
Mine Locomotive.....835
Mines, Compressed Air in.....
Motor Car.....715
Motor, Oscillating Air Engine.....705
Motor Portable 601
Motor Portable.....705
Motors, Popp System.....764-765
Multipliers, Table of.....597

Operation of Compressed Air Cars, Paris Summary.....719-720
Oxygen to Purify Air.....812

Paris Power Plant.....715
Patents Granted January, 1899.....607
Patents Granted February, 1899.....623
Patents Granted March, 1899.....645
Patents Granted April, 1899.....687
Patents Granted May.....709-711
Patents Granted June, 1899.....734-736
Patents Granted July.....755
Patents Granted August.....776-777
Patents Granted September, 1899.796-797
Patents Granted October, 1899....814-815
Patents granted November, 1899..836-838
Patents Granted December.....863-864
Percentages of Efficiency Compressed Air 632
Pipe Bender.....704
Pipe Forming.....703
Pipe Line, Paris.....739
Pneumatic Bed.....684
Pneumatic Carpet Renovator.....644
Pneumatic Dispatch Tubes.....604
Pneumatic Propulsion.....751-753
Pneumatic Pump.....835
Pneumatic Tools.....771-774
Pneumatic Tools.....793-794
Pneumatic Tools.....810
Pneumatic Tools.....863
Pneumatic Traction.....690
Pneumatic Traction.....798
Pneumatic Traction.....818
Popp Car, Capacity.....715
Popp Car, Weight of.....715
Popp Compressed Air Motors.....715
Popp System Power Plant.....739
Popp, Victor.....Cover October
Portable Motor.....601
Possibilities of Liquid Air.....671
Power Plant at Paris.....715
Power Truck and Frame, Popp System 718
Precaution to Prevent Freezing.....758
Preheating 799
Preheating Compressed Air.....765
Pressure of 3,000 Lbs. Per Sq. In., Bottles for Holding.....594
Pressure Under Which Men Can Live.733
Progress in Compressed Air.....657
Pumping Water by Merrill System, 599-600
Pumping Water.....705
Pumping Water.....706
Purifying Alcoholic Liquors.....792

Qualities of Compressed Air.....739

Ratio of Areas Inlet and Outlet Valves to Air Cylinder.....620
Reducing Air from High to Low Pressure 804-806
Refrigerating 791
Reheaters, Popp System.....764
Reheating 798-799
Reheating Air.....781
Reheating Compressed Air with Steam 823-827
Removing Scale from Armor Plate...768
Report on Trials Made at Magog, Quebec, to Test the Economy Effected by Preheating Compressed Air 765
Reservoir for Conveying and Retaining Liquid Air.....698
Reservoirs and Reheaters.....715
Ringing Chime Bells.....647-650
Riveters in Shipbuilding.....660-662
Riveting on Drawbar Pockets.....851
Rotary Motors, Popp System.....779

Safety of Air at High Pressure.....594
"Sand Hogs".....858
Sanding House N. C. R. R., Cover September
Saw-Mill, Compressed Air in.....802
Shaft and Motor, Flexible.....602
Size Compressor for 2,500 Gallons Water 706
Speed of Cars.....719
Steam Nigger Lever.....803
Step Bending Machine.....853

Steel Tubes.....683
Steering Gear.....607
Steering Gear for Vessels.....618
Storage Tubes.....652
Street Cars, Charging with C. A.....657
Street Railway System Considered.818-820
Switches and Signals at Boston.....668
Switch Movement.....670

Temperature Best Adapted to Public Health.....715
"Terror," U. S. Monitor, Pneumatic System on.....607
Time Service.....763
Tools, Pneumatic.....754
Tools, Pneumatic.....771-774
Tools, Pneumatic.....810
Traction Compressed Air.....630
Traction, Pneumatic.....818
Transmission, Economy of Compressed Air.....631
Truck Automobile.....650
Truck and Motor of Street Cars.....655
Tubes Tested to 4,500 Lbs. Sq. In...
Tunnel for Underground Dispatch....778

Underground Pipes.....746
Utilization of Air as Motive Power for Tramways.....719
Utilizing Brake Energy.....615

Velocity of Flow Through Port.....835
Vulcanizing Wood.....792

Water in an Air Pipe Line, How to Avoid.....605
Water, Pumping.....706

3,000 Atmospheres, How Obtained...605

631
650
655
778
746
719
